(ESF) 3 ADDENDUM 3 DEBRIS CLEARANCE AND DISPOSAL

	Preparedness	Response
	Assemble Emergency Action Plans. Train response team leaders. Identify emergency action plan personnel schedules and reporting stations. Prepare maps of streets, parking lots and vacant areas. Secure memo of mutual agreement between City and private support agencies. Identify City and support equipment. Identify staging and disposal sites. Contract for support equipment. Identify funding. Identify reporting procedures.	Report to Operations Center. Notify Public Information Officer (PIO) Implement personnel schedule. Notify public and private support agencies to be on a standby basis for possible deployment. Mobilize for debris clearance in compliance with emergency response plan as directed by EOC for: Search and rescue operations Routes for emergency vehicles Support to utility companies Mobilize for debris staging and removal in compliance with emergency response plan as directed by EOC. Log in the support agency being deployed and the time of
	☐ Establish Operations Center for the Debris Clearance and Disposal Team.	their deployment. Mitigate the hazards. Collect incident information.
	Recovery	Mitigation (Lessons Learned)
	Deploy resources (City and support agencies).	Debrief participants. Document level of effort and costs.
	Support search and rescue.	Re-evaluate and modify existing response plans.
- 1	Clear emergency access routes.	Pay contract costs incurred in effort.
	Support re-establishment of utilities.	Service equipment.
	 Maintain contact with the EOC and PIO. Utilize the staging areas as needed. Remove and dispose of debris. Log out the support agency deployed and the end time of their deployment Continue collection of incident information. 	Restore staging areas.

(ESF) 3 ADDENDUM 4 TEMPORARY CONSTRUCTION OF EMERGENCY ACCESS ROUTES

Preparedness		Response
Assemble Emergency Action Plans.		Report to Operations Center.
Train response team in duties.		Notify Public Information Officer (PIO).
Identify emergency action plan personnel		Implement personnel schedule.
schedules and reporting stations.		Notify public and private support agencies to be on a
Secure maps/footprints of key access routes.		standby basis for possible deployment.
Secure memo of mutual agreement between City		Log in the support agencies being deployed and the
and private support agencies.		time of their deployment.
Identify equipment/stockpile materials.		Mobilize in compliance with appropriate contingency
Identify funding.		plans found in:
Establish Operations Center for the Temporary		☐ Identify routes
Construction of Emergency Access Routes Team.		☐ Prioritize routes
		☐ Assign resources
		☐ Stage resources
		☐ Assess hazards.
		☐ Mitigation of hazards.
	Ш	Collect incident information.
Recovery		Mitigation (Lessons Learned)
Re-establish temporary critical public access		Debrief participants.
roads.		Document resources used and costs.
Utilize private support agents.		Reevaluate and modify existing preparedness plans.
Utilize identified equipment stockpiled materials.		Analyze incident information to mitigate damage.
Log out support agencies deployed and the end		
time of their deployment.		
Maintain contact with PIO.		
Maintain contact with EOC.		
Activate staging areas.		
Continue collection of critical new information.		

(ESF) 3 ADDENDUM 5 EMERGENCY RESTORATION OF CRITICAL SERVICES

Preparedness		Response
Assemble Emergency Action Plans.		Report to Operations Center.
Train response team in duties.		Notify Public Information Officer (PIO).
Identify emergency action plan personnel		Implement personnel schedule.
schedules and reporting stations.		Notify public and private support agencies to be on a
Secure maps/footprints of key facilities,		standby basis for possible deployment.
transmission and collection lines.		Mobilize in compliance with appropriate contingency
Secure memo of mutual agreement between City		plans found in:
and private support agencies.		☐ AWT, WREP 2001
Identify equipment/stockpile materials.		☐ Collection System, WREP 2001
Identify funding.		Flood Preparedness, SEG Engineering & Consultants
Establish Operations Center for the Emergency		Eagle Creek Dam, DCAM/DPW 1999
Restoration of Critical Public Service Team.		Y2K
		Log in the support agencies being deployed and the time
		of their deployment.
		Assess hazard.
		Mitigation of hazard.
		Collect incident information.
	Ш	Provide updated status of restoration of services.
Recovery		Mitigation (Lessons Learned)
Re-establish critical public services.		Debrief participants.
Utilize private support agents.		Final inventory of damage.
Utilize identified equipment stockpiled materials.		Document resources used and costs.
Log out support agencies deployed and the end		Reevaluate and modify existing preparedness plans.
time of their deployment.		Analyze incident information to mitigate damage.
Maintain contact with PIO.		
Maintain contact with EOC.		
Activate staging areas.		
Continue collection of incident information.		

(ESF) 3 ADDENDUM 6 EMERGENCY DEMOLITION AND STABILIZATION OF BUILDINGS

Preparedness	Response
Assemble Emergency Action Plans.	Report to Operations Center.
Train personnel in duties.	Implement personnel schedule.
Identify emergency action plan personnel schedules and reporting stations.	Notify public and private support agencies to be on a standby basis for possible deployment.
Memo or mutual agreement between City and private sectors.	Mobilize resources in compliance with appropriate contingency plans with priority provided by EOC.
Identify available equipment for demolition and stabilization.	Log in support agencies being deployed and the time of their deployment.
Identify sites for disposal of materials.	Collect damaged structure information.
Identify funding.	Assess hazard.
Establish Operations Center for the Emergency	Mitigate hazard.
Demolition and Stabilization of Buildings Team.	
Recovery	Mitigation (Lessons Learned)
Perform demolition and/or stabilization.	Debrief participants.
Utilize public or private sectors.	Perform final site inspection.
Utilize identified available equipment and materials.	Reevaluate and modify existing preparedness plans. Document resources used and costs.
Maintain contact with PIO.	Pay contract costs incurred.
Maintain contact with EOC.	·
Log out support agencies deployed and the time of	
their deployment.	
•	

(ESF) 3 ADDENDUM 7 ENVIRONMENTAL MITIGATION

Preparedness		Response
Assemble Emergency Action Plans Train personnel in duties Prepare ready response list of personnel and contact information Memo of mutual agreements with support agencies Identify/stockpile needed equipment/materials Understand required roles Identify funding/processes for funding Establish Operation Centers for the Environmental Mitigation Team		Report to Operations Center Notify Public Information Office (PIO) Review appropriate emergency action plans Office of Administrative Services Office of Maintenance Services Office of Solid Waste Marion County Public Health Department Indianapolis Fire Department Indianapolis Police Department Indiana Department of Environmental Management United States Environmental Protection Agency Assess and characterize environmental hazards Develop and implement strategies for addressing (reducing) identified environmental hazards (scene stabilization)
Recovery Implementation of clean-up Assemble sampling/recovery equipment Identify disposal techniques Assemble clean-up crews Dispose of environmental hazards in accordance with Federal, State, and Local regulations Asses effectiveness of environmental remediation Meet with designated state & federal officials to review mitigation of environmental damage (s) Maintain contact with PIO		Mitigation Hold post incident analysis Evaluate and modify emergency action plan Implement measures to prevent recurrence if appropriate Analyze hazard/incident information Inventory and evaluate response resources and capabilities Identify actions that will lessen the environmental impact of future disasters Debrief participants Compare documentation with other ESFs.
Maintain contact with EOC Maintain site security Conduct financial analysis and report resources and	<u> </u>	Compare documentation with other EST 5.

(ESF) 3 ADDENDUM 8 CONTROL AND UTILIZATION OF DPW EQUIPMENT AND MANPOWER

Preparedness	Response
Assemble Emergency Action Plans. Train response team in duties. Identify emergency action plan personnel schedules and reporting stations. Secure memo or mutual agreement between City and private support agencies. Identify equipment/stockpile materials. Identify funding. Establish Operations Center for the Control and Utilization of DPW Equipment and Manpower.	Report to Emergency Operations Center. Notify Public Information Officer (PIO). Implement personnel schedule. Notify public and private support agencies to be on a standby basis for possible deployment. Log in support agencies being deployed and the time of their deployment. Mobilize resources in compliance with appropriate contingency plans with priority provided by EOC to: Identify equipment and manpower Prioritize equipment and manpower Assign resources. Stage resources. Deploy equipment and manpower as directed by the EOC. Collect incident information.
Recovery	Mitigation (Lessons Learned)
Utilize private support agencies as needed. Utilize identified equipment and manpower. Maintain contact with PIO. Maintain contact with EOC. Log out support agencies deployed and the time of their deployment. Activate staging areas. Continue collection of critical new information.	Debrief participants. Reevaluate and modify existing preparedness plans. Document resources used and costs including equipment damaged or destroyed. Analyze incident information to mitigate damage.

(ESF) 4 FIRE

EMERGENCY SUPPORT FUNCTION

(ESF) 6 MASS CARE

Preparedness	Response
Maintain and practice Emergency Action Plans. Update equipment, resource and shelter lists regularly. Review mutual aid agreements regularly. Attend scheduled tabletop exercises and other training events. Cross train volunteers with other related efforts. Recruit & train volunteers. Conduct ongoing public education efforts for disaster preparedness measures. Work with ESF 14 to develop a single mechanism for donations goods management. Develop a mechanism for screening emergency volunteers for the proper qualifications. Determine plan for emergency communications. Maintain ongoing public education efforts.	Verify proper notifications to key staff members. Contact Incident Commander & EOC. Document all related costs, actions, decisions & communications. Verify communication procedures (Cell phones, DPSC radios, pagers, etc.) Send a senior ESF 6 staff member to the Countywide EOC. Notify personnel, volunteers, and vendors. Inspect vehicles for safety requirements. Establish refuel & maintenance schedules. Receive & complete mission assignments. Consider logistical needs for 24x7 operations. Schedule personnel in shifts. Provide meals & necessary rest periods. Ensure volunteers are properly trained and registered before deployment.
Recovery	Mitigation (Lessons Learned)
Return equipment to regular service schedules. Finish required incident reports. Assemble & index all incident documentation. Survey equipment & vehicles for recent damages. Solicit feedback from other responders. Attend scheduled kickoff meeting for Public Assistance. Meet with designated state & federal emergency management officials for the applicants briefing. Complete required PA applications, maintain detailed records for audit purposes. Recognize volunteer efforts formally.	Attend scheduled post-incident analysis meetings. Compare documentation with other ESFs. Review & update internal and ESF plans as necessary

(ESF) 7 RESOURCE SUPPORT

Preparedness	Response
Review internal Emergency Action Plans regularly. Review mutual aid agreements as necessary. Attend scheduled tabletop exercises and training events regularly.	Notify personnel and vendors. Contact the Incident Commander & Countywide EOC. Send ESF 7 official & staff to EOC on request. Begin documenting all incident-related costs,
	actions, decisions & related communications. Log incoming resource requests appropriately.
Recovery	Mitigation (Lessons Learned)

(ESF) 10 HAZARDOUS MATERIALS

Preparedness	Response
Conduct site safety visits. Pre-plan response actions whenever possible Update equipment & resource listings. Review mutual aid agreements. Attend scheduled tabletop exercises and training events regularly. Continue ongoing public education efforts regarding hazardous materials and community protective actions, i.e. evacuation and shelter in place.	Perform core mission emergency response functions. Fire fighting & rescue services. Hazardous Materials incident response capability. Start Incident Command, name PIO. Prepare site safety plan Implement appropriate community protective action, i.e., sheltering in place or evacuation. Set up decontamination operations before entry. Gather available information at the scene. Verify identity and risks of the hazardous material(s) Estimate incident course and potential harm. Determine strategic goals Stop the release, contain the substance, and protect public health and the environment. Notify FBI WMD coordinator of incidents involving suspected or confirmed Weapon of Mass Destruction. Assess tactical options. Plan and implement actions. Evaluate actions for effectiveness. Review strategic options for effectiveness.
Recovery	Mitigation (Lessons Learned)
Return deconned equipment to regular service. Complete required incident records and reports. Assemble & index all incident documentation. Survey all vehicles for new damages. Meet with designated state & federal officials to review mitigation of environmental damage (s) Meet with emergency management officials for the applicants briefing. Complete required PA applications, maintain detailed records for audit purposes.	Hold post incident analysis as outlined in the site safety plan Debrief other participants as appropriate Evaluate and modify emergency action plan(s) Implement measures to prevent recurrence if appropriate Analyze hazard/incident information Inventory and evaluate response resources and capabilities Compare documentation with other ESFs.
